

**PUNJAB AGRICULTURE, FOOD AND DRUG AUTHORITY
HOME DEPARTMENT
THOKAR NIAZ BAIG, LAHORE**

Public Notice

**CONSULTATIVE SESSION FOR ROOM PRESSURE
MONITORS PRE-QUALIFICATION**

Punjab Agriculture, Food and Drug Authority (PAFDA) is established to provide world class facility with highest standards of professionalism and integrity to ensure availability of quality medicine, food, pesticides fertilizer to the public, at par with any advanced country in the world. PAFDA is planned to pre-qualifying firms for the Supply, Installation, Commissioning, and Maintenance of **Room Pressure Monitors**.

1. A Room Pressure Monitor is a critical device used in controlled environments at PAFDA such as laboratories, clean rooms, and healthcare facilities to ensure proper air pressure differentials, preventing contamination and maintaining compliance with safety standards. These monitors interface with **DDC controllers (IQ-ECO-35 and IQ-ECO-38 TREND by Honeywell) and Venturi valves (TRIATEK ACTFA8220 with UVM 1000)** to regulate airflow and maintain environmental integrity.
2. Before initiating the pre-qualification process, PAFDA has decided to organize a workshop with prospective bidders to provide technical insights, discuss project specifications, and address industry queries.

All interested firms are encouraged to participate in this consultative session as it will help align the procurement process with industry best practices.
